Smart Test Cracker – 2013

The course comprises of:

- 10 Proctored Mock CATs

- 20 Un-Proctored Mock CATs

- 6 Non-CAT Mock tests

- 15 Non-CAT FLTs

CAT '13 Test Series:

Benchmark your performance across 50,000+ test-takers – the largest gathering of CAT '13 aspirants before the actual exam.

10 Proctored Mock CATs

Simulation of the actual CAT, these tests has been designed to take the surprise element out of the actual exam. Each of the 10 Proctored computer based mocks would be conducted over a period of 10 days, in a computer lab at a pre-designated location. These will be followed by detailed performance analysis and an All-India percentile ranking. If a student fails to take the test in the proctored computer based format, that particular Mock would be made available to the student in the unproctored computer based format for 3 days only, after the Proctored Mock Window. Post which, the test will not be accessible on SIS.
