About CL:

Career Launcher India Limited (CL) is Asia's leading education service provider with presence in over 130 locations across India, Middle East Singapore and the United States.

CL provides test-prep education to enable school and college students gain admission to professional courses. It is also actively involved in the field of mainstream education, mainly through its growing network of play schools and secondary schools.

With its focus on the students' needs, its foundation firmly set on its Core Values, and technology as a key driver, CL strives to enable people to realize their potential and make their dreams come true.

Today over 400 academicians and professionals around the world work with CL to counsel and groom 50,000+ students across 130 locations in India, Middle East and the US.

Dear health care providers of tomorrow,
Now that you are about to finish—or have already completed—your MBBS course, you are aware how demanding the medical profession actually is. On call 24 X 7, and the ensuing burden of huge expectations from both patients and their attendants, make it really hectic.

Needless to say, preparing for such a profession, honing your skills to match the in-depth and exhaustive level of studies that PG courses in medical sciences demand, is also equally hectic.

Add to that the fact that there are only a handful of seats in the PG courses as compared to the number of aspirants, and you know that to realise your dream your ardent desire needs to be combined with meticulous planning and a lot of hard work.

And this is precisely where we come in.

We are Career Launcher, who are the leaders when it comes to preparing students like you for competitive entrance exams related to MBA, BBA, Hotel Management, Engineering, Law, GMAT, GRE, among others.

And now, in the arena of PG medical entrance, besides our 13 years of experience in the field of test-prep, we are ably complemented by 8 years of expertise of Dreamz Learning Innovation, Hyderabad, who are our academic partners.

What's on offer:

- » Year-on-year research-based data of last 20 years of questions asked in different PG medical entrance tests.
- » Over 3000 high yield points arrived at after thorough screening and detailed analysis. These are the points and sub-points which constitute 94 % of any competitive pre. PG medical entrance test.
- » A unique system of revising and internalizing those concepts using our three-pronged strategy.
 - First, we provide you with a hard-bound note covering all high yield points from all 21 subjects and their different branches. We expect you to come to our class revising one particular topic which is pre-announced. At our center we run a multimedia rich high fidelity video lecture which will cover the whole topic and discuss the relevant questions asked in different tests, plus related clinical cases. For five days, starting from Monday to Friday this is your routine. After class it is advisable you go through the notes once again at your convenience.
 - On Saturday, we conduct a test which assesses your knowledge and competency on that particular topic. Your score in the test will reveal whether a corrective reinforcement of that topic is required, or your current level of knowledge is good enough.
 - On Sunday, you sit for a full-length simulated all India test in which you can benchmark your level of preparation vis-à-vis your competitors spread across India. Every test is followed by a detailed discussion of all the questions.

Customized Programs:

For the first-timers:

Doctor Plus Classroom Program (DPCP)

Meant for those who are sitting for the PG entrance exam for the first time, this module covers all topics that you have studied in the past four-and-a-half years. It includes multimedia rich video based lecture at class rooms, which we conduct in two ways—daily three hours inside the class room; and classes of longer duration conducted only during weekends.

The program also includes 30 subject tests and 30 full length mock Pre PG tests, followed by detailed analysis and discussions.

For those with time-constraint:

PG MED Mock Test Series

We understand that for many of you attending classes everyday might not be possible for lack of time. For you, especially, we have come up with a module that comprises only 30 subject tests and 30 full length mock PG tests, each of which will be followed by a detailed video explanation class. You shall get an all-India ranking based on your performance in the tests.

For those who want to test the waters:

PG MED Mock Crash Test Series

This module is meant for those who, prior to appearing for the pre PG exam, want to test and rank themselves in an environment very similar to that on the day of the actual examination. It comprises 15 subject tests and 15 All India Pre PG mock tests. Every test is followed by detailed video discussion of that test.

Take the first step towards a career in the medical industry.

Just drop in at your nearest Career Launcher center today with any query you might have about the PG entrance test or our program.

You can also avail of a free demo lecture that is conducted regularly at our centers.
